Operation **WE CARE**

Operation WE CARE (OWC) is a pilot program offered by Trinity Equestrian Center's Healing With Horses program. Trinity is offering Equine Assisted Psychotherapy by their licensed and certified treatment team for returning and recovering combat Veterans and their families who are wrestling with the effects of PTSD, TBI or amputation . OWC is at no cost and includes all accommodations, meals, therapy sessions, recreation and gas cards and can range from a one-hour session to a weekend retreat get-away. Currently there is no funding for this much need therapy by the VA or any other military supported organization.
